

## PRIMARY COLORS:

These (3) Primary Colors are what ALL other colors are made of

**RED**

**YELLOW**

**BLUE**

## SECONDARY COLORS:

These (3) Secondary Colors came from mixing 2 of the Primary Colors

**Green** =Blue + Yellow    **Orange**= Red + Yellow    **Purple/Violet**= Red + blue

**GREEN**

**Blue** + **Yellow**

**ORANGE**

**Red** + **Yellow**

**PURPLE/VIOLET**

**Red** + **Blue**

## TERTIARY COLORS:

To make the last set of colors on the color wheel, we need to mix a Primary Color with the next Secondary Color, working around the color wheel in a clockwise direction. Any 2 Tertiary Colors opposite to one another on the color wheel will make **Gray**.
